7 and the monster copper ore bod-w being developed in Samuel ouse's wonderful Cactus bonan-short distance northwest of Friswould be hard to conceive of any more convincing than the 250sample of ore placed on exhi-in the front window of the Short ticket office on Main street yes-t. The great sample was foronally the owner of the mine have no object in it.
en it was explained to him that
hibition of the sample would tend vertise the region from which it Mr. Newhouse at once laid aside dections and acquiesced in As-General Passenger and Ticket Spencer's application for per-on to place the huge chunk of here it could be viewed by the An admiring crowd was in and the office all day, a fact that ed the interest shown in it. A was attached explaining where it

retary Brown says the inarenoiders in the Mayflower are all poor men, and as their ground adjoins some of the that the Cactus mine, of which whouse is the sole owner, had as their ground adjoins some of the most valuable property in the district, they are hoping that some of the big companies will, one of these days, make them an offer for their holdings.

"We can never hope to properly developed the man average of only 6 we believe the ground to be very valuable. For that reason we should be pleased to get an offer for it from some of the open at in the Starlus shaft between 1,500 and in the Starlus shaft between 1,500 and in the Starlus shaft in the Starlus shaft between 1,500 and in the Starlus shaft in the Starlus shaft in the Starlus shaft between 1,500 and as their ground adjoins some of the in the Starlus shaft between 1,500 and as their ground adjoins some of the district, they are hoping that some of the shaft in the Starlus shaft between 1,500 and as their ground adjoins some of the district, they are hoping that some of the shaft in the Starlus shaft between 1,500 and as their ground adjoins some of the district, they are hoping that some of the shaft is now shaft into the vein on its dip. The new electric hoist is working smoothly and good progress is being made.

Page's Daily Market Letter.

Never buy stock in a corporation that has put in years of time, and much money, in demonstrating the fact that they have not got a mine. In most instances they have been disappointed in the Starlus shaft between 1,500 and in the Starlus shaft between 1,500 and as their ground adjoins some of the district, they are hoping that some of the district, they are hoping that some of the starlus shaft between 1,500 and in the Starlus shaft between the hop of the starlus shaft between the plotted of the starlus shaft between the plotted of the starlus shaft between 1,500 and in the Starlus shaft between 1 nan \$15,000,000 worth or aned up for extraction down to

## BINGHAM-NEW HAVEN.

ompany's Power Drill Plant in

ration and Work Humming. ager F. E. Benedict of the reorganized Bingham-New Haven Copper Mining company has the few weeks last past, got ling in shape for the winter's gn. Yesterday the new com-plant went into regular com-land the driving of the com-Frisco tunnel to a connection the Morning Star and Zelnora was resumed with the aid of drills. A building has been to the old boarding house that igned to provide a comfortable room and kitchen, and with this on the management has provided the management has provided on the management has provided imodations for twenty-five men at crowding. Men will now be to the force at the properties as a clow space can be made for and by the time spring opens, ser Benedict confidently expects be the mines in shape for the ng out of vast quantities of ore.

A company was never organized to operate Utah mines that went to work on shorter notice, or got things down to a system quicker than has the Bingham-New Haven, and local operators are now convinced that the big company is in earnest in its determination to make of the Frisco, Morning Star and Zelnora groups another Highland Boy.

## WILL LAWRENCE'S LUCK.

Makes a Fine Strike in the Scottish

Chief Ground, Big Cottonwood.

Some very large and rich looking samples of galena ore in the windows of W. H. Clark's office on Second South street attracted considerable attention among mining men yesterday, and not a few inquisitors sought information as to where it came from The samples were from a new strike made in the Scottish Chief group of claims on the south side of Scott hill, at the head of Big Cottonwood canyon. The property is now being operated by Will J. Lawrence under a two year's bond, and the discovery is said to place the property in a position where shipments could very shortly begin if development was subordinated to mining. Assays obtained on the ore show it to contain an average of 48 per cent, thirty expressibles 24 to 86 in gold and Chief Ground, Big Cottonwood.

and prospectors familiar with the ground unhesitatingly declared that if a proper line of development was followed it would turn out well. It appears that Mr. Lawrence is the man to prove it up, and his friends all rejoice with him in his good luck.

### OPHIR MINE DEVELOPMENTS. Silver and Gold Values Gradually Increasing in the Ores.

ring ground in the Gold mountain rict.

ne deal was practically closed in the on Friday, when Mr. Lammersfewent up to confer with W. E. son, president, and Captain H. C. wrence, secretary and treasurer, of company in behalf of which the chase was made. Together, the ties named came down to the city erday morning and, with the deeds secrow at McCornick's bank, the lal payment was made, the contract viding that a certain sum should paid every sixty days from now unthe end of 1904, when, unless the gation is sooner discharged, final will be passed.

Will be passed

### BIG GUNS AT TONOPAH. John Hays Hammond and Other Ce-Horn Silver ... 1 25 Sierra Nevada... Iron Silver ... 80 Small Hopes ...

lebrities Doing the Camp. Concerning the visit of a number of top notch operators and mining engineers to the famous Nevada gold-silver camp of Tonopah, the last issue of the Bonanza says:

"It is doubtful if there is another mining section in existence that has

"It is doubtful if there is another mining section in existence that has within its confines as many heavy mining operators as are gathered in Tonopah now. President Brock of the Tonopah company is among the number, with Clyde A. Heller, president of the Fraction company, together with several directors. All are the busiest of the busy. John Hays Hammond, the mining engineer of worldwide celebrity, is making an exhaustive examination of the central groups, especially the properties on and closely surrounding Mt. Oddie.

"Speculations as to the outcome of

it is distant only about two from a several days' trip into the Wah

during the three or four days that he had at his disposal, that a fine gold-producing camp will spring up there producing camp will spring up there one of these days, and he is inclined to think, also, that development will show some good bodies of silver-lead ore as well. More news concerning the new region will likely be forthcoming in the near future, but just at present, Mr. Rohlfing says, it would be premature to talk.

### OPERATIONS AT MAYFLOWER. Year's Work Completed-Stockholders

Want to Sell Out. retary William M. Brown of the Mayflower Mining company, owning property in the Pine canyon side of Bingham, stated yesterday that the assessment work for this year had just been completed and recorded, as was also an abstract of the description of the property as it has existed and been. the interest shown in it. A the property as it has existed and been was attached explaining where it held since the time of its location. Sector and giving its assay value er cent copper.

we believe the ground to be very valuable. For that reason we should be pleased to get an offer for it from someone able to open it up, or from some of the companies which might be glad to round out their possessions with it."

Ore and Bullion.

Ore and bullion settlements in this city during the past week, as reported by McCornick & Co., amounted to \$515, 700, yesterday's proportion of the total being \$55,900, as follows: Silver, lead, gold and copper ores, \$11,800; base bullion, \$26,700; gold bars, \$20,400.

Metal Market

Page's Daily Market Letter.

Never buy stock in a corporation that has put in years of time, and much money, in demonstrating the fact that they have not got a mine. In most instances they have been disappointed in their expectations, and continue spending time and money in the desperate hope of finally striking something. It cannot be expected that all prospects will become mines, and after a reasonable amount of prospecting it is better to abandon a failure and try a new field. Pay no attention to the par value of stock. It does not change the true value at all. The property has an actual valuant attack. attention to the par value of stock. It does not change the true value at all. The property has an actual valuation and that is what must govern in the market. Consider well capitalization. Remember that one share in the capitalization of 100,000 shares represents the same interest as ten shares in the capitalization of 1,000,000 shares. There is no mining country that offers the capitalization of 1,000,000 shares. There is no mining country that offers inducements equaling those of the states of Utah, Colorado, Idaho or Ne-Week Closes and Month Opens to Very Light Business.

The week closed and the month opened on the mining exchange yesterday to the lightest business recorded in many a long day. In all 11,850 shares, with a selling the open board call, and few indeed were the spectators in attendance.

Lower Mammoth, with the announcement that the company was out of debt, sold at \$1.55 to \$1.59\frac{1}{2}\$, as against a closing sale at \$1.55\frac{1}{2}\$ on Friday. It was the

## WALL STREET

THE SALT LAKE HERALD, SUNDAY, NOVEMBER 2, 1902,

DURING THE DAY THE FEELING

they have uncovered a body of high grade ore, and the stock is in demand. There is but little of it on the local market.

Lower Mammoth is selling at \$1.55, and Mammoth at \$1.76. May Day has been strong and closes 23 cents bid. Ontario and Silver King are firm at interest quotations. Star Con., Uncle Sam and Yankee are probably shorts. Wabash is selling at \$1.35. There can be but little loss in buying this stock, and there is a chance for big profits. On the open board Naildriver is the favorite. This is a good stock and I advise buying for an investment. The Johnny will begin paying dividends soon, and is a good stock to put away. New York sells at 53 cents to 55c, and Park Summit can be got in small amounts at 25 cents. Park City Star is a good prospect and worth buying; it is in a good locality and well managed. The Hawkeye-Mc-Henry is a very promising mine with good ore. They have a fine shaft and first class equipment is ordered. Daly-Judge is weaker and may sell lower until they can pay dividends. The market offers more inducement to buyers than at any time during the last two months.

Take the Lone with local stock market ruled even duller and more earsow today. Moderate inactivity and slightly higher prices were shown at the opening here, the local stock market ruled even duller and more earsow today. Moderate inactivity and slightly higher prices were shown at the opening through there was an undertone of irregularity. The greatest gains in the opening were in Manhattan, St. Louis & San Francisco and Colorado Fuel & Iron.

Apparent covering in Reading browners and broven and coverage of the common. Other points of early strength were Rock Island and Canadian Pacific. The special class was most prominent but interest and more the startive and its took and it was resported that one firm of brokers had bid 674 for any part of 100,000 shares of the common. Other points of early strength were Rock Island and Canadian Pacific. The special class was most prominent but fine the stock and it was response to the

Park City stocks are to become more and more the favorites. The camp has paid \$26,000,000, and dividends are constantly increasing. It is becoming the greatest camp in the world. If I can

The bank statement had not entered very seriously into the calculations of traders, yet it was rather better than many looked for, and the selling which followed its publication lacked explanation. The closing was dull and weak. There was some talk of special gold shipments to Austria, but details were not obtainable. Trading in bonds was in small volume during the week and the movement irregular on a narrow margin. United States 2s declined 1½ as compared with the closing call of last week. be of any service to you, write or wire me at any time.

Washington, Nov. 1.—Today's statement of the treasury balances in the general fund, exclusive of the \$150,000,000 gold reserve in the division of redemption, shows: Available cash balances ance, \$206,421,878; gold, \$113,542,933.

## Metal Markets.

New York, Nov. 1.-Metals: The week has been quiet in all departments with very narrow price changes. Today's market has been slow but generally steady. Tin was quoted at 26.65@26.76.
Copper was about steady, with lake at 11.62@11.87%; electrolytic and casting at 11.60@11.70, and standard at 11.40.
Lead was dull at 4.12%.
Spelter, 4.25. Iron quiet and unchanged.

The Bank Statement. New York, Nov. 1.—The statement of the associated banks for the week ending today shows: loans. \$878,509,700; increase, \$7,532,100.

Deposits, \$893,791,200; increase, \$11,-Circulation, \$44,093,900: increase Legal tenders, \$70,262,900; increase, \$842,600. Specie, \$134,524,000; horease, \$5,491,500. Reserve, \$244,786,900; increase, \$6,334,-

required, \$223,447,800; in-

Reserve required, \$223,447,800; increase, \$2,776,475.

Surplus, \$21,339,100; increase, \$3,557,625.
United States deposits, \$31,419,525; increase, \$3,587,725.

The New York Financier says: The striking statement in the New York associated banks last week was the unexpected gain of \$6,334,100 in cash, whereas the traceable movements of money during the week seemed to indicate a loss of \$212,400. It is noteworthy that the gain in cash last week makes the total increase in this item for two weeks \$23,397,200, or an amount about equal to the sum disbursed for bonds bought for the sinking fund and the receipts of gold at San Francisco from Australia, which gold was trans-

ferred hither by telegraph during the week.

The loans were augmented by \$7,532,-100, making \$13,058,900 in the fortnight, the increase last week was probably due to temporary loans of funds which had been accumulated preparatory to their disbursement this week for interest and for syndicate operations.

The deposits were increased \$11,105,-900, or \$7,760,306 less than the amount called for by the gain in cash and in loans; hence the statement is again out of proof.

The required reserve was augmented by \$2,776,475, deducting this sum from the gain in cash leaves \$3,557,625 as the increase of surplus reserve to \$21,339,100 as computed upon the net deposits, including those of the government. Excluding these deposits, which now amount to \$40,185,800, the surplus reserve increased by \$3,587,725 to \$31,385,550.

Another important feature of the

serve increased by \$3,587,725 to \$31,385,550.

Another important feature of the statement was a further increase in circulation by \$1,965,000, making a gain of \$4,237,800 in the fortnight.

The surplus reserve, computed upon the basis of all deposits, is now \$10,856,300 greater than it was this time a year ago and the banks are doubtless in a very strong position for the season. Therefore should there be an important revival of speculation involving increased demands for loans or credits such a movement would doubtless be regarded as not objectionable under the circumstances. Comparing changes in loans by some of the larger banks, it is seen that four institutions gained \$6,600,000 net, that one bank increased its loans by \$6,400,000. Six banks show a net gain of \$4,900,000 in specie; one increased in this item by \$4,600,000 and one bank lost \$3,000,000.

GRAIN AND PROVISIONS.

### GRAIN AND PROVISIONS.

Chicago, Nov. 1.-Statistics were all agai st wheat and the market ruled weak throughout the day with the ex-ception of some steadiness early. Longs again threw a lot of stuff on the maragain threw a lot of stuff on the market, and with no support prices declined steadily. Large primary receipts and rapidly accumulating stocks were the principal bear features. Selling by the southwest was also a weakening influence. World's shipments were estimated at about 12,000,000 bushels, and a liberal increase was looked for in the visible supply. December opened a shade higher, at 72%c to 72%c, and after holding fairly steady the first hour the market gave way and the price dropped to 72c. The close was %c lower, at 72%72%c.

Weakness in wheat affected the corn market, and after a fairly steady open-

weakness in wheat affected the corn market, and after a fairly steady opening prices weakened. Trading was light. The close was weak. December closing %c lower, at 50% 650%c.
Oats ruled weak, particularly May, on selling by commission houses influenced by weakness in other grains. December closed %6%c lower, at 23% 623%c.

Provisions were subject to a steady selling pressure, longs being the principal sellers. The market was extremely weak throughout the day. January pork closed 27% lower, lard

Marvelous Elixir of Life Discovered by Famous Doctor-Scientist that Cures

Every Known Ailment. Wonderful Cures Are Effected that Seem Like Miracles Performed---The Secret

of Long Life of Olden Times Revived The Remedy is Free to All Who Send

Name and Address.

DR. JAMES WILLIAM KIDD.

discovered the elixir of life. That he is able with the aid of a mysterious compound, known only to himself, produced as a result of the years he has spent in searching for this preclous life-giving boon, to cure any and every disease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is dasky effecting seems to bear him out very strongly. His theory which he advances is one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure, so there is absolutely no risk to run. Some of the cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuralgia, stomach, heart, liver, kidney, blood and skin diseases and bladder troubles disappear as by magic. Headaches, back-aches, nervousness, fevers, consumption, coughs, colds, asthma, catarrh, bronchitis and all affections of the throat, lungs or any vital organs are easily overcome in a space of time that is simply marvelous. Partial paralysis, locomotor ataxia, dropsy, gout, scrofula and plies are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the pure remedy for it will be sent you free
